@CSFundraising #fundraisinglive

I am delighted to announce the agenda for Fundraising Live 2019, returning in its fourth year as the place fundraisers come to share experience, ideas and successes. The past year has been one of great change, with regulatory updates and ongoing battles to restore public trust in charities following various safeguarding and fundraising scandals. Nevertheless, across the sector we can find examples of organisations turning these challenges into opportunities to improve quality, delivery and efficiency.

This year's programme demonstrates how many charities are disrupting the established order to innovate and build confidence. Our speakers will discuss how they are changing what they do to place the supporter at the centre of their strategies, building productive and inclusive fundraising teams, and using technology to revolutionise the supporter journey.

Join us to celebrate Plan International's ten-year anniversary with corporate partner Credit Suisse, learn how East Anglian Air Ambulance took their fundraising team to the next level, and access a step-by-step guide from British Heart Foundation explaining how to revolutionise your supporter engagement on a £30 budget. At Fundraising Live you will have ample opportunity to network with your peers during the speed networking session, interactive breakouts and with a complimentary drinks reception at the end of the day.

We look forward to welcoming you and your team to join us on 7th February for another inspiring and uplifting event.
